3126 Cat Engine Reviews

The Caterpillar 3126 engine is a CAT engine that was used for light and medium duty uses. It was used in everything from boats, cranes, over the road trucks and ambulances to RVs and buses. It is based on an earlier design (3116), and when it was retired, the CAT C-7 was based on it and was its replacement.

These are solid engines the only real down fall or "Achilles heal" for the 3126 is the crossover tubes for the HEUI system. They develop hairline cracks and leak off oil pressure which would be used for injection actuation. The C7 uses the same block as the 3126 but has a re-designed head which eliminates the use of the crossover tubes.
