Overview. Kaleidoscope vision is a short-lived distortion of vision that causes things to look as if you’re peering through a kaleidoscope. Images are broken up and can be brightly colored or shiny.

What Causes Kaleidoscope Vision? In Both Eyes, in One Eye ...

This low figure suggests that other issues, rather than anti-Europeanism per se, are more significant drivers for these types of voters. Overall, the most popular coalition among Europeans would be one comprising the centre-left, the Greens, and the Liberals: this is favoured by more than 180 million voters (46 percent of the entire electorate).

How to govern a fragmented EU: What Europeans said at the ...

Our first two profit maturity stages (Fragmented and “Green Visor”) observed a 6% increase in respondents, compared to a decline of 11% for the later stages (Coordinated, Managed, and Integrated).
