Glacier Ice

Arctic Glacier is North America's leading manufacturer and direct-to-store distributor (DSD) of premium quality packaged ice, ice equipment and related services. Since its start in 1996, Arctic Glacier has grown significantly through strategic acquisitions and organically.

Arctic Glacier

Glacier ice is actually a mono-mineralic rock (a rock made of only one mineral, like limestone which is composed of the mineral calcite). The mineral ice is the crystalline form of water (H_2O). It forms through the metamorphism of tens of thousands of individual snowflakes into crystals of glacier ice. Each snowflake is a single, six-sided (hexagonal) crystal with a central core and six projecting arms.
