Honda Motorcycle Identification Guide

Every Honda motorcycle has a unique frame number. The frame number can be found either stamped in to the headstock of the frame (Where the steering stem passes through the frame) or stamped on a VIN plate which is then rivitted to an exposed area of the frame. Some examples of Honda frame numbers: CX500A

...

All Honda engines model numbers start with the letter "G," such as "G100", "GX610", or "GXV160." This is the base engine model. The engine model and serial number should be adequate for most of your needs. However, if you need the detailed engine type, you can find an engine identification guide here.

Classic Honda Motorcycle book. Gives background information on the models much more than an ID guide. Sort of an ID guide with background history, facts/opinions with some collectability thrown in. X.

Classic Honda Motorcycles Identification Guide - 1958-1990 ...

Finding the engine serial number on a Honda motorcycle can be easy or more of a challenge, depending on the model of motorcycle. Cruisers have engines that are relatively exposed, and the engine number should be easy to spot. Sport bikes may have fairings that cover the engine, making the engine number more difficult to locate.

YYYYYYY = the actual serial number of the engine, what number
it was in the production run. This does NOT always match the
serial number part of the VIN number or chassis number on a
Honda even on brand new showroom bikes. Honda used to have
an identification book they published every so often to help
figure out this sort of thing.
