Lyssas Dream A Hard Science

The hard SF is spot on, with well developed characters - some you love and others you love to hate. And the scenes where Andy juggles the responsibilities of fatherhood with his duties are refreshing and extremely well written. You won't want to miss either Lyssa's Dream nor the story's continuation in Lyssa's Run.

Lyssa's Dream is moderately paced, balanced between character and action. It's intelligent without wallowing in tangential musings. It's gritty without grinding down the telling in Clancy-esque technology description. Most of all, I'm dying to know what happens next, because Aaron makes these real, complex characters plug straight into your heart.
