River And The Source Study

The River and the Source - Study Guide, Notes, Themes, Typical Essay Questions and Answers The River and the Source Plot: The River and Source has a very simple plot. I would easily define the plot as a linear plot-in the sense that the book begins with the birth of Akoko, the flow and pace that the writer uses is of progressive nature.

A river begins at a source (or more often several sources), follows a path called a course, and ends at a mouth or mouths. The water in a river is usually confined to a channel, made up of a stream bed between banks. In larger rivers there is often also a wider floodplain shaped by flood -waters over-topping the channel.
