The Naked Surgeon by Samer Nashef, book review: The truth ...

The Naked Surgeon, by Samer Nashef provides an enlightening outlook on how statistics are used to measure successes and failures in the medical profession, particularly in surgery. It shows just how these statistics may not be an accurate marker of the proficiency of the surgeon, and how easily results may be manipulated.

The Naked Surgeon - So You Want Tibia Doctor

the power and peril of transparency in medicineSamer Nashef. 'A superb book for anyone who wants to understand the challenges and complexities of transparency and accountability in the NHS. Told through the eyes of a heart surgeon, it's gripping, honest and numerate — an essential companion in our journey from blind trust in doctors to kind truth. ' The Naked Surgeon is both is a very important and timely book.

Surgery is a patriarchal field which, by the nature of its demanding schedules and those who pursue it, is neither female- nor family-friendly. In addition, there is a severe paucity of female mentors. There are wage discrepancies, as well as a lack of career advancement and leadership opportunities.
