They should apply market forces, including the profit motive, to curtail the growing cost of health care. As much as possible, they should place the power to make difficult decisions into the hands of patients and their doctors.

### Health Care and the Profit Motive | National Affairs

The Profit Motive and Patient Care is well written, easy to follow, and well documented. It is essential reading for those involved in the development of healthcare policy and cost-containment measures and those who are uncertain as to the benefits and liabilities of for-profit versus not-for-profit healthcare endeavors.

### Book Reviews

The profit motive in health care can be a very bad thing. The incentive to maximize financial gain — and not always at the benefit of patients — can bring us too many surgeries and not enough primary care providers. At its worst, it can lead to massive fraud and abuse. But it can also spark positive changes — or so the architects of the federal health reform law hoped.

### Does Health Care's Profit Motive Hurt More Than It Helps ...

One of the more common sentiments that chronic pain patients express is that the profit-motive seems to have had too much of an influence on the recommendations that their healthcare providers have made over the years.

### The Profit Motive and Patient Care: The Changing ...

The profit motive, the drive for reputation, glory, recognition, infect all of us. Clinicians are not exempt, clinician-leaders even less so. Residents have known intimately that they are cheap labor for hospital systems, trading promised education for the assurance that they will remain underpaid cogs in the medical billing machine.

### Bosses of Us: Doctors, Administrators, and the Profit Motive

But when profit trumps medical judgment, and a patient is harmed, that patient must have access to the Courts to seek justice and financial compensation.A good place to start, in fostering the change Gawande envisions, is by improving patient care and reducing the incidence of malpractice, so that financial success can be obtained by medical providers while benefiting patients.
